

SBH. Hydraulic ledge clamp. These guides and clamps the die at the pressing table.

Advantages: Permanently fixed to the press table. Guides the die sideways. Very useful for those who have dies of the same length and size.

Choice: Extra heat resisting seals (Viton) when mounting the clamps on the warm press tables.

Left and below: SBH on press table, excenter press.

NOTE: If an article shall be used in an existing or new slot a dimension print (page 4) shall always be enclosed when placing an order.

TYPE SBH	A	B	C	Tension /kN at 200 bar			cylinder stroke of piston	Number of pistons
25K	170	90	45	25			5	3
25K-R	170	90	45	25			5	3
25	270	90	45	25			5	3
25R	270	90	45	25			5	3
40	270	90	45	40			5	5
40R	270	90	45	40			5	5
70	370	90	45	70			5	7
70R	370	90	45	70			5	7
100	520	90	45	100			5	10
100R	520	90	45	100			5	10

R = integrated pilot operated safety valve.(non-return valve) K = short model
